The Allies Expect Early Heavy Assault Toward Calais.

Terrible Distress In Poland. Relief Men Say.

Press comment indicates a belief that an offensive movement on a large scale on the Allies' left wing is in course of preparation, the Germans expecting by the use of masses of artillery and infantry to blast a way to Galais on the English Channel.

Latest reports on the situation along the front of this wing show little but artillery firing, grenade fighting, and similar usinor operations

Great distress in Poland is reported by representatives of re-lief organisations who have reached Berlin. The suffering among the population of the warravaged land is particularly from lack of shelter and fuel, while typhus and other disease are prevalent. It is declared that 30 per cent. of the people are dependent upon relief.

The case of the captured British steamer Appan is still under visament by the U.S. State Repartment. Meanwhile initial steps we been taken for the removal of 244 persons on board, which the mean price crew had held as prisoners, and who have been great-the right to leave the ship, the Appan anchoring off Mossport was to facilitate this process.

RAISING THE 173RD.

RAISING THE ITRD.

From all points of view the meeting in the First. Methodist Courch leaf and raise the First. Methodist Courch leaf and raise the ITRM Highland regiment in Hamilton was a pronounced success. There was a 1::70 and catthus-stastic audience, the apeakers made a rite impression, and the "results" work between seventy-five and a hundrig recruits to form the nucleus of interior in the regiment. Colonel Bruce, in an earnest, patriotic speech, detailed the steps arrived yeaken to form the bale and the regiment, before the proceeding to the front. They wanted to see the colonel. We would like to see that of the product young men. We would like to see that of the product young men. We would like to see that of the product young men to the gainer Colonel. We would like to see that of the product young men to the saidson, and colonel we would like to see that of the product young men to the audience to a high pitch. Major James Chieboim also made a ringing appeal to the young men to ealist.

enlist.

No regiment will go to the front under better conditions than will the 172rd. It will be officered by and composed of Hamilton men, and it will have the advantage and benefit of the experienc and talents of Mator. of the experient and talents of Major Morinon, a Hamiltonian who has already distinguished himself as the front. It will go completely equipped and provided with everything that can edd to the comfort of the men. It will be an honer to belong the such a regiment, and no Hamilton your man who can go can possibly stay be hind and be fair to himself.

THE SCHOOL BO/RD
School Board of 1916 got off to a

"farewelled" gracefully, and
way for the new chairman, Dr. made way for the new chairman, Dr. Carr. The doctor said he felt the Carr. The doctor said he feit the responsibility of the position, and outlined some reforms that he would like to see instituted. He believe that after the war is over there will be a demand for expert workman, consequently he is anxious that there should the technical. escently he is sandous that there should be an improvement in the technical and industrial education of the rising generation. With this end in view he havored the extension of the school cern to efstrean years of age. There should not he much opposition to this, if the extre. Nor years are to be put to good secount. These additional years should not be used for the purpose of sequiring additional fulls, but should be devoted to giving the putils an opportunity to prepare for the future by acquiring a technical or industrial education to fit them for their life work. It might be possible to follow work. It might be possible to follow squeation to fit them for their integration work. It might be possible to follow the practice abroad of having haif-timers, allowing pupils to work part of the day and study the other part. KENTUCKY Turns Down PROHIBITION

A BILL submitting an amendment to the Constitution of Kentucky providing for state-wide Probibition was defeated, 20 to 14, on January 25th, in the Upper House of the General Assembly of the State, where it originated. Which goes to show that old Kentucky has not failed to learn the lessons taught her by her sister states of the South, which lessons are certainly sufficiently plain, backed up, as they are, by a mass of incontrovertible facts and figures.

Takes Warning From Sister States

For example, owing to the Yest Pro-hibitory Law, by which the State jost \$600,-000 of revenue, West Virginia was literally "broken" financially. In Temessee they was, owing to the introduction of Prohibi-tion, an increase in the cost of criminal pro-nection." ease in the cost of criminal protion, an increase in the cost of eximinal processition, that is, of crime, of 100%; while as to the financial situation, The State Manufacturers' Association said: "There is a tendency throughout the State to increase taxes on an already overburdened people, both by constant increase of the associament as well as the rate." In North Carolina 37.5% of all the boys and 34.1% of all the tip the were employed in gainful occupations and thus deprived of all educational opportunities. The following tables are also illuminating:

DRY	WET
Number of Persons in Almshous	es to Every 100,000 Inhabitants.

THE CALL TO MANHOOD

There is also a tide in the af-tairs of Empires which spells Success or Disaster.

So far as me British Empire is concerned, that time is now at the flood, and the fate of the Empire rests with YOU.

The call of the King has gone forth, the call for more men. What are you going to do?

The King calls you, the Empire calls you, humanity calls you. There is but one excuse, vis., physical unfitness.
